

# MINIFORST

max. 20 cm Ø  60-110 HP

## Forestry mulcher for small tractors - versatile in use

MINIFORST is the smallest mulching machine of this series and can be attached to small and medium-sized tractors. It mulches grass and bushes up to 20 cm in diameter. Thanks to the different types of rotors, this mulcher can be adapted for specific work. The standard rotor with fixed hammers with two tungsten carbide inserts is perfect for general forestry operations.

For an application where a fast, clean cut is required, the optional hammer rotor with a sharp blades might be the choice.

If required, the mulcher will be delivered with a guard frame.

## Standard version and specifications

- > Mulches bushes and wood up to 20 cm [8"]Ø
- > Working speed 0-5 km/h
- > 3 point rear linkage cat. 2 central fixed
- > 1000 rpm gearbox with freewheel and through shaft
- > Belt transmission
- > Hydraulically operated hood
- > Reinforced skids, adjustable in height
